DETAILED ACTION

1. Claims 1-2, 4-6 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, Claim 7 is withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on August 21, 2007.

2. Applicant's election without traverse of invention group IV, drawn to a composition matter, wherein, X is carbon, and compound 15 as identified in the specification in the reply filed on August 21, 2007 is acknowledged.

3. It is noted that claims 4-6 are drawn to composition matters of invention group III, wherein X is boron, the compound of claim 7 is the compound 13 defined in the specification (page 9 of the specification). Therefore, none of the newly added claim read on the elected invention and species.

The claims have been examined insofar as they read on elected invention and species.

Claim Rejections 35 U.S.C. 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claim 3 is rejected under 35 U.S.C. 102(b) as being anticipated by Lafont et al.

(Tetrahedron, 1978, Vol. 34, No. 15, p 2405-2408).

6. Lafont teach compound 15 herein. See, table 2 at page 2406. It is noted that "composition matter" recited in claim 3 would read on the compound.
